

# AP Chemistry Summer Assignment 2024/25 School Year

All students who are enrolled in AP chemistry must complete a summer assignment. The assignment was distributed in early May to students currently enrolled in the course. If you are planning to take AP chemistry in the fall and have not received the summer work, please reach out to Ms. Jamieson ([sjamieson@c-dh.org](mailto:sjamieson@c-dh.org)) asap to get the summer assignment.

A textbook will need to be picked up from the CDH Main Office to complete the summer work.

Thank you,  
Ms. Jamieson
